

Halloween Party

Did you get to go to a Halloween party last year? Well I did. Last year my class had a halloween party and it was a blast of fun, at school. Can you believe it?

We played some made games like "Toss The Pumpkin". Our class got extra recess too. Everyone had funny and scary costumes, ones like clowns, Harry Potter, goblins, jackolantrons, and more. I was a witch.

People brought in tasty treats. We had cookies, candy, and blood red punch. My class also made some crafts.

Different people freaked me out by suprisedly saying, "Boo!" But don't worry I got them back, "He He He."

The Halloween party was only about three hours, but so what it was still fun.

My birthday is on Halloween and so was a boy in my class's. So we had double cupcakes. At the end of the day I felt queasy, but in a good way. At our class party some candy we put tissues over, drew faces on them, and they were ghosts. I snuck in the line twice and made two. I came home with more stuff than I went to school with. Including a filled stomach. I had an extraordinary class Halloween Party.
